Translation: For many years, I had various types of pain in the cervical spine. After the first treatment with Mr. Straub, I felt significantly better. Today, 3 months after the second treatment, I have almost no more complaints. Anyone seeking relief and freedom from discomfort should take advantage of this therapy with this therapist.				
Original: Ich hatte über viele Jahre Schmerzen verschiedener Art in der HWS. Schon nach der ersten Behandlung bei Herrn Straub ging es mir deutlich besser. Heute, 3 Monate nach der zweiten Behandlung, habe ich so gut wie keine Beschwerden mehr. Wer auf der Suche nach Linderung und Beschwerdefreiheit ist, sollte diese Therapie bei diesem Therapeuten in Anspruch nehmen.

Looking back, I am sad that I can only experience this relief now, but extremely grateful for this wonderful treatment method.				
Original: Durch meine Skoliose hatte ich oft Rückenschmerzen, die sind fast ganz verschwunden. Jetzt mit 61 Jahren geht es mir besser als jemals zuvor. Die Behandlung würde ich jeder Zeit wieder machen. Rückblickend bin ich traurig, dass ich diese Erleichterung erst jetzt erfahren kann, aber überaus dankbar für diese großartige Behandlungsmethode.

Translation: I had been struggling with headaches, dizziness, and nausea for a long time. It was found that my atlas was misaligned. In search of a suitable treatment, I came across Atlantomed and scheduled an appointment there. The treatment using the Atlas method was very intense. Afterwards, I was initially a bit tired, but at the same time, I already felt that something had changed. In the following weeks, it got better and better. My previous complaints gradually disappeared, and my posture also improved significantly – I walk much more upright today and feel better overall. The second treatment was also several weeks ago, and I am really very satisfied with the result. My previous complaints are definitely gone, and my posture has changed very positively. I am very glad to have found Atlantomed and can truly recommend the treatment and care.				
Original: Ich hatte längere Zeit mit Kopfschmerzen, Schwindel und Übelkeit zu kämpfen. Dabei wurde festgestellt, dass mein Atlas schief stand. Auf der Suche nach einer passenden Behandlung bin ich auf Atlantomed aufmerksam geworden und habe dort einen Termin vereinbart. Die Behandlung nach der Atlas-Methode war sehr intensiv. Danach war ich zunächst etwas müde, hatte aber gleichzeitig schon das Gefühl, dass sich etwas verändert hat. In den darauffolgenden Wochen wurde es immer besser. Meine bisherigen Beschwerden sind nach und nach verschwunden und auch meine Körperhaltung hat sich deutlich verbessert – ich gehe heute viel aufrechter und fühle mich insgesamt besser. Die zweite Behandlung ist mittlerweile ebenfalls schon einige Wochen her und ich bin wirklich sehr zufrieden mit dem Ergebnis. Meine vorherigen Beschwerden sind definitiv weg und auch meine Körperhaltung hat sich sehr zum Positiven verändert. Ich bin sehr froh, Atlantomed gefunden zu haben, und kann die Behandlung und die Betreuung wirklich weiterempfehlen.

Translation: Finally more quality of life again I suffered from migraines for over 20 years. In recent years, I also experienced severe tension and pain in the neck and upper back area. Numerous attempts such as acupuncture, homeopathic treatments, and sports unfortunately did not bring any lasting improvement. On 05/18/2026, I underwent Atlas correction with Marcus Kraft. The treatment was completely painless for me. The consultation and execution were very competent, and every step was explained clearly. The result surprised me incredibly: From the very first day, my migraines improved by 100%, and my back and neck problems decreased by about 80%. Particularly remarkable: My eyesight has demonstrably improved. Today, I only have mild headaches about 1–2 times a month, which can be well treated with over-the-counter medication – they are no longer comparable to migraines at all. I am overjoyed to have undergone this treatment. It has given me a significant piece of my quality of life back. I would have the Atlas correction done again at any time and can only recommend it based on my personal experience. The price-performance ratio is also absolutely justified for me.				
Original: Endlich wieder mehr Lebensqualität Ich litt über 20 Jahre unter Migräne. Dazu kamen in den letzten Jahren starke Verspannungen und Schmerzen im Nacken- und oberen Rückenbereich. Zahlreiche Versuche wie Akupunktur, homöopathische Behandlungen und Sport brachten leider keine nachhaltige Verbesserung. Am 18.05.2026 war ich zur Atlaskorrektur bei Marcus Kraft. Die Behandlung war für mich völlig schmerzfrei. Die Beratung und Durchführung waren sehr kompetent und jeder Schritt wurde verständlich erklärt. Das Ergebnis hat mich unglaublich überrascht: Bereits ab dem ersten Tag hat sich meine Migräne um 100 % verbessert, meine Rücken- und Nackenbeschwerden sind um etwa 80 % zurückgegangen. Besonders bemerkenswert: Meine Sehkraft hat sich nachweislich verbessert. Heute habe ich nur noch etwa 1–2 Mal im Monat leichte Kopfschmerzen, die sich mit rezeptfreien Medikamenten gut behandeln lassen – mit Migräne sind diese überhaupt nicht mehr vergleichbar. Ich bin überglücklich, diese Behandlung gemacht zu haben. Sie hat mir ein großes Stück Lebensqualität zurückgegeben. Ich würde die Atlaskorrektur jederzeit wieder durchführen lassen und kann sie aus meiner persönlichen Erfahrung nur empfehlen. Auch das Preis-Leistungs-Verhältnis ist für mich absolut gerechtfertigt.

Translation: I am about 70% free of complaints. However, I still suffer from tension in the left shoulder and neck area. These feel as if my muscles and tendons are under tension and "too short." I am also undergoing physical therapy because of this. The therapist says that the complaints are not due to a renewed atlas misalignment, but rather that the complaints are still the aftereffects of the atlas correction. I would have this correction done again at any time, as it has greatly helped with my main complaints. I have also recommended this form of treatment to other acquaintances who are experiencing similar issues.				
Original: Ich bin bis zu ca.70 % beschwerdefrei. Allerdings leide ich noch immer an Verspannungen im Linken Schulter- und Genickbereich. Diese fühlen sich an, als wären meine Muskeln und Sehne unter Anspannung und „zu kurz“. Ich bin deswegen auch in krankengymnastischer Behandlung. Der Therapeut meint, dass die Beschwerden nicht von einer erneuten Atlasfehlstellung kommt. Sondern, dass die Beschwerden eher noch die Nachwirkung der Atlaskorrektur sei. Diese Korrektur würde ich auf jederzeit wieder durchführen lassen, da sie mir in meinen hauptsächlichen Beschwerden sehr geholfen hat. Auch habe ich die Behandlungsform schon anderen leitenden Bekannten weiter empfohlen.

Translation: I had back and particularly neck problems for decades. The former improved after treatment by a good osteopath. The neck problems, which manifested themselves, among other things, through brain fog, only improved with the Atlantomed treatment. I was amazed at how well this also affected the overall back posture! Interestingly, since then I have also had hardly any reflux cough and hardly need to inhale anymore (i.e., my digestion has improved). I needed two treatments.				
Original: Ich hatte jahrzehntelang Rücken- und insbesondere Nackenbeschwerden. Erstere besserten sich nach der Behandlung durch einen guten Ostheopaten. Die Nackenbeschwerden, die sich u.a. durch Brain Fog zeigten, verbesserten sich erst mit der Atlantomed-Behandlung. Ich war erstaunt, welch gute Wirkung diese auch auf die allgemeine Rücken-Statik hatte! Interessant ist, dass ich seither auch kaum Reflux-Husten mehr habe und kaum mehr inhalieren muss (d.h. die Verdauung hat sich verbessert). Ich brauchte zwei Behandlungen.

Translation: I felt safe with Mr. Michailidis. I was in a lot of pain, I was shortly after therapy in the Philippines. The muscles were relaxed and then a vibration device was used to press firmly against the atlas so that it realigns properly. The direction was checked beforehand. I think a second treatment is not necessary for me. I still have a few problems and often have to move my head back and forth, but it's now manageable and mostly due to stress. I thank you, and it was a good experience. But I think I don't need anything more right now.

Translation: Hi, over the years, gradually increasing health (various) problems ultimately led me to discover this ATLANTOMED treatment in the fall of 2025. After repeatedly reading the website, I contacted the therapist. Following a consultation, an examination of my atlas vertebra was conducted. It was determined that the vertebra was in a deplorable misalignment. According to the therapist, living with this misalignment was like sitting on a powder keg (a ticking time bomb). I was quickly offered an appointment in February 2026 for the first session. After this appointment (naturally with absolute uncertainty and concerns), I could immediately notice improvement. This improvement increased in the following weeks until the second session. I had my second session at the end of April. Even after this session, my health continued to improve. ((Unfortunately, I cannot list all the symptoms here, significant complaints included: pulsating noise in the head, slight sweating, light sleep as well as falling asleep problems, problems with organs (stomach/intestines, liver, etc.)). Ultimately, I am GLAD that I got to know this therapist and technique and had it performed on me. At this point, I feel very well. I am FAR BETTER...!!!! I can only recommend this treatment. Best regards				
Original: Moin, über Jahre sich langsam steigernde gesundheitliche (diverse) Probleme bin ich letztendlich im Herbst 2025 auf diese ATLANTOMED Behandlung gestossen. Durch mehrfaches lesen der Internetseite habe ich Kontakt zum Therapeuten aufgenommen. Nach einem Beratungsgespräch ist bei mir die Untersuchung am Atlaswirbel durchgeführt worden. Festgestelt wurde eine desolate Schiefstellung vom Wirbel. Laut Aussage vom Therapeuten würde ich mit diese Schiefstellung wie auf ein Pulverfass (tickende Zeitbombe) leben. Sehr schnell ist mir ein Termin in Februar 2026 für die erste Sitzung unterbreitet worden. Nach diesem Termin (natürlich absolut unsicher und mit Bedenken) konnte ich sofort Besserung feststellen. Diese Besserung steigerte sich in den darauf folgenden Wochen bis zur zweiten Sitzung. Ende April hatte ich meine zweite Sitzung. Auch nach diese Sitzung steigerte sich meine Gesundheit. ((ich kann leider nicht alle Symptome hier auflisten, gravierende Beschwerden waren z.B.: pulsartiges *********en im Kopf, leichtes Schwitzen, leichten Schlaf sowie Einschlafprobleme, Probleme mit Organe (Magen/Darm, Leber, etc.)). Letztendlich bin ich FROH, dass ich diesen Therapeuten bzw. Technik kennenlernen durfte und an mir ausgeführt wurde. Ich fühle mich zum jetzigen Zeitpunkt sehr wohl. Mir geht es WEIT AUS BESSER...!!!! Ich kann diese Behandlung nur empfehlen. Freundliche Grüße

Translation: I was very satisfied with Mr. Kraft's treatment. He thoroughly explained what was wrong with my body and how and, most importantly, why it would be corrected. In the preliminary discussion, we discussed all symptoms in detail. I felt comfortable throughout the entire treatment. In the meantime, some of my complaints are improving, and I am fully convinced that the therapy is a great help in starting the path to recovery. Here, too, I can only positively emphasize that Mr. Kraft made it clear that therapy alone is not enough and that I also need to work on leading a healthy life. I greatly appreciate this honesty. I am completely satisfied with the treatment.

Translation: I came with a whole range of complaints. Neck tension, permanent light sensitivity, pressure pain at the back of the head, noise sensitivity, tinnitus, dizziness, jaw tension, sleep disturbances, restlessness, lower back pain. Alex is a specialist of the highest class. After the first session of atlas correction, the dizziness, inner restlessness, noise sensitivity, lower back pain, and headaches completely disappeared. Light sensitivity and neck stiffness improved by 80%. Sleep disturbances improved by 90%. After 6 weeks, the second session of atlas correction. In the first 2 weeks, there was an initial worsening, and afterwards everything was gone except the tinnitus remained, but Alex had said from the beginning that it is most likely due to jaw misalignment. It has now been 7 weeks since the second session. I am feeling very well. I must also note that before this, I had naturally seen all the doctors like the ophthalmologist twice with a second opinion, ENT doctor, general practitioner with MRI scan, neurologist. None of them could help me because they couldn't find anything causing these complaints. The atlas correction doesn't hurt in any way, at least that's how I perceived it. It is purely a vibration massage. I would definitely and wholeheartedly recommend Alex.

Original: Ich kam mit einer ganzen Palette an Beschwerden. Nackenverspannungen, permanente Lichtempfindlichkeit, Druckschmerzen am Hinterkopf, Geräuschempfindlichkeit, Tinnitus, Schwindel, Kieferverspannungen, Schlafstörungen, Unruhe, Schmerzen im Lendenbereich. Alex ist ein Spezialist der Superklasse. Nach der 1. Sitzung der Atlaskorrektur verschwanden komplett der Schwindel, die innere Unruhe, die Geräuschempfindlichkeit, Schmerzen im Lendenbereich, Kopfschmerzen. Zu 80% die Lichtempfindlichkeit und Nackensteifheit. Zu 90% Schlafstörungen. Nach 6 Wochen die zweite Sitzung der Atlaskorrektur. In den ersten 2 Wochen kam die Erstverschlimmerung und danach war alles weg außer der Tinnitus ist geblieben, aber der Alex hat von Anfang an gesagt, dass es höchstwahrscheinlich an der Kieferfehlstellung liegt. Seit der 2. Sitzung sind es mittlerweile 7 Wochen vergangen. Mir geht es sehr gut. Ich muss auch zwischen vermerken, dass ich davor natürlich alle Ärzte umgangen bin wie Augenarzt 2x mit Zweitmeinung, Ohrenarzt, Hausarzt mit MRT-Bild, Neurologe. Keiner konnte mir helfen, weil die nichts gefunden haben, was diese Beschwerden auslöst. Die Atlaskorrektur tut in keiner Weise weh, zumindest habe ich es so empfunden. Es ist eine reine Vibrationsmassage. Ich würde den Alex mit Sicherheit und voller Überzeugung weiter empfehlen.

Translation: Somehow the atlas has already corrected itself, I think - but it triggered quite a bit in the rest of my back, which was very painful - afterwards, I was completely misaligned, even in the pelvis, and had quite a lot of pain and had to go to Dorn Breuss, as it didn't get better on its own, to realign my pelvis, and I had pinched ribs. In this regard, the entire spine is looked at too little, and too much focus is placed only on the cervical spine, which then causes problems elsewhere. The device placed over the back probably caused my ribs to get pinched. Since the insurance doesn't cover it, and I had to go somewhere else both times afterward, it's not ideal and too expensive. For the atlas itself, though, maybe it's good, I honestly can't say.				
Original: Irgendwie hat sich der Atlas schon korrigiert denke ich - jedoch hat es im Rest vom Rücken einiges ausgelöst, was sehr schmerzhaft war - ich war danach total verschoben auch im Becken und hatte ziemlich Schmerzen und musste in die Dorn Breuss, da es von alleine nicht besser wurde, um mein Becken wieder zu richten, und ich hatte eingeklemmte Rippen - . Insofern, wird mir zu wenig die ganze Wirbelsäule dabei angeschaut, und zu viel nur auf HWS fokussiert, was dann anderswo eben Probleme bringt. Das Gerät was über dem Rücken platziert ist hat mir wohl die Rippen einklemmen lassen. Da die Kasse es nicht zahlt, und ich danach beide Male nochmal wohin musste nicht ideal und zu teuer. Für den Atlas selbst aber vielleicht schon gut, kann es so gar nicht sagen ehrlich gesagt.

Translation: I decided to leave this review after giving the treatment time to show any results. The staff was undoubtedly professional, helpful, and knowledgeable, nothing to say on this aspect. However, unfortunately, the treatment had no effect on me. I turned to them for neck and shoulder pain issues, but 4 months after the first session, the situation has remained exactly the same. I have not noticed any improvement, not even a slight one. I was also told that I should have complemented it with postural exercises, but this does not change the fact that the treatment itself, in my case, had a result of zero. I am sincerely disappointed because it represented one of the last hopes for me to try to resolve these pains.				
Original: Ho deciso di lasciare questa recensione dopo aver dato tempo al trattamento per mostrare eventuali risultati. Il personale è stato senza dubbio professionale, disponibile e preparato, nulla da dire sotto questo aspetto. Tuttavia, purtroppo il trattamento non ha avuto alcun effetto su di me. Mi ero rivolto a loro per problemi di cervicale e dolore alla spalla, ma a distanza di 4 mesi dalla prima seduta la situazione è rimasta esattamente invariata. Non ho notato nessun miglioramento, nemmeno minimo. Mi è stato anche spiegato che avrei dovuto affiancare della ginnastica posturale, ma questo non cambia il fatto che il trattamento in sé, nel mio caso, ha avuto un risultato pari a zero. Sono sinceramente dispiaciuto, perché rappresentava per me una delle ultime speranze per cercare di risolvere questi dolori.

Translation: Good day My expectations for the treatment were very high (also due to the many positive testimonials), and I had hoped for a lot from it. However, my symptoms did not really improve afterward (just differently..). Since the information sheet you receive after the first treatment lists many different symptoms as possible reactions, I found it difficult to assess whether everything was okay (whether it was part of the healing process). Mr. Grzesiak was very nice, but during the treatment, I experienced severe pain - even here I didn't know if that was normal & part of it or if I should say something. I was afraid afterward (at home) that something had been damaged. I also found it unfortunate that no photos were taken during the second treatment - so I have no reference point to determine if the treatment was successful and feel a bit left alone as a patient. I also find it somewhat risky to recommend a text on "the right mental attitude" to patients before the treatment - depending on the personality type, this can also be counterproductive and create pressure ("if I don't feel better afterward, I am the problem") - those who do not believe in alternative healing methods would probably not make an appointment in the first place.				
Original: Guten Tag Meine Erwartung in die Behandlung war sehr gross (auch durch die vielen positiven Erfahrungsberichte) und ich habe mir davon viel erhofft. Meine Beschwerden sind danach jedoch nicht wirklich besser geworden (einfach anders..).Da auf dem Merkblatt, das man nach der 1. Behandlung bekommt viele verschiedene Beschwerden als mögliche Reaktionen aufgelistet sind, fand ich es schwer einzuschätzen, ob alles ok ist (ob das zum Heilungsprozess gehört). Hr. Grzesiak war sehr nett, allerdings hatte ich während der Behandlung starke Schmerzen - auch hier wusste ich nicht, ob das normal ist & dazu gehört oder ob ich etwas sagen sollte. Ich hatte danach (zuhause) Angst, dass etwas kaputt gegangen ist. Ich fand es ausserdem schade, dass bei der 2. Behandlung keine Fotos gemacht wurden - so habe ich keinen Anhaltspunkt, ob die Behandlung erfolgreich war und fühle mich als Patientin ein wenig allein gelassen.Ich finde es auch etwas riskant, Patienten vor der Behandlung einen Text mit "der richtigen Mentalen Einstellung" zu empfehlen - je nach Persönlichkeitstyp kann das auch kontraproduktiv sein und Druck auslösen ("wenn es mir danach nicht besser geht, bin ich das Problem") - wer nicht an Alternative Heilmethoden glaubt, würde ja wohl gar nicht erst einen Termin vereinbaren.

Translation: Atlantomed saved my life!! Before going there, I was full of ailments starting with the trigeminal nerve that drove me crazy, and then the vagus nerve also contributed, causing disturbances throughout my body, especially with digestion. Termin hatte ich mich beim Frisör die Haare waschen lassen. Fataler Fehler. Schon wieder war der Atlaswirbel verdreht und der Schwindel begann wieder. Der 2. Termin hat jetzt die Verbesserung gebracht und mit entsprechende Übungen habe ich mein Problem in den Griff bekommen. Vielen Dank Herr Braun.

Translation: With the correction of the atlas, I have come back to life; I will never thank this center and Tamara enough. I owe my rebirth to you! I no longer have any pain in my head or neck. For me, AtlantoMed was salvation. To all the doctors who filled me with psychotropic drugs, I want to say that they were wrong; I was neither depressed nor crazy, I had the first two vertebrae of the spine rotated and displaced.				
Original: Con la correzione dell'atlante sono ritornata a vivere, non ringrazierò mai abbastanza questo centro e Tamara. Devo a voi la mia rinascita ! Non ho più nessun tipo di dolore né alla testa né al collo. Per me AtlantoMed è stata la salvezza. A tutti i medici che mi hanno riempito di psicofarmaci, voglio dire che si sbagliavano, non ero depressa, né pazza, avevo le prime due vertebre della colonna ruotate e traslate.

Translation: I came across the topic of atlas correction after my doctor identified an issue at this location. She recommended this treatment, which I gladly pursued. When filling out the form for the first time with Mr. Straub, I first noticed various symptoms that I had not associated with the atlas vertebra (e.g., ear noises). For context: in 2011, I had a stroke (due to a brain hemorrhage) with hemiplegia/hemiparesis. As a result, I put completely different and one-sided strain on my body halves, which constantly led to increasingly severe tensions. Therefore, I attributed all symptoms to this circumstance and assumed that nothing could be changed about it as long as this condition wasn't further improved. Only the atlas correction with Mr. Straub proved to me that it is completely different. My posture has completely changed (see before/after photos), the ear noises have completely disappeared, and the severe tensions have been eliminated. Tensions that still occur today - due to daily training sessions - like muscle soreness are significantly less painful and enduring than before. The obligatory treatments with the alternative practitioner are now a thing of the past. The body can handle the remaining pain residues much better. If I had known this, I would have had this correction done much earlier. Many pains would have been spared me. It is all the more delightful now to be able to perceive the changes immediately after the treatment. I certainly feel like a new person. Many thanks for this important tip to Dr. Wengert and to the physiotherapist Mr. Straub for the professional execution				
Original: Ich war auf das Thema Atlaskorrektur gekommen, nachdem meine Ärztin eine Störung bei mir an dieser Stelle festgestellt hatte. Sie empfahl mir, diese Behandlung, die ich daraufhin gerne wahrnahm. Beim 1. Ausfüllen des Formulars bei Herrn Straub fielen mir erst diverse Symptome auf, die ich nicht im Zusammenhang mit dem Atlaswirbel gesehen hatte (z.B. Ohrgeräusche). Zum Hintergrund: ich hatte im Jahr 2011 einen Schlaganfall (aufgrund Hirmblutung) mit Hemiplegie/Hemiparese. Deshalb belaste ich meine Körperhälften völlig unterschiedlich und einseitig, was ständig zu immer größeren Verspannungen geführt hat. Ich bezog deshalb alle Symptome auf diesen Sachverhalt und ging davon aus, dass daran auch nichts zu ändern sei, solange dieser Zustand nicht weiter verbessert würde. Erst die Atlaskorrektur bei Herrn Straub bewies mir, dass es völlig anders ist. Meine Haltung hat sich völlig geändert (siehe Fotos vorher/nachher), die Ohrgeräusche sind völlig verschwunden, die starken Verspannungen wurden beseitigt. Heute immer noch auftretende Verspannungen - aufgrund von täglichen Trainingseinheiten - wie Muskelkater sind wesentlich weniger schmerzhaft und andauernder als früher. Die obligatorischen Behandlungen beim Heilpraktiker sind mittlerweile Vergangenheit. Der Körper kann viel besser mit den noch verbleibenden Schmerz-Resten umgehen. Wenn ich das gewusst hätte, hätte ich diese Korrektur schon viel früher durchführen lassen. Viele Schmerzen wären mir dadurch erspart worden. Umso schöner ist es nun, wenn man die Veränderungen ab sofort nach der Behandlung wahrnehmen kann. Ich jedenfalls fühle mich wie neu geboren. Vielen Dank für diesen wichtigen Tipp an die Ärztin Dr. Wengert und an den Physiotherapeuten Herr Straub für die professionelle Durchführung

After trying various treatments and almost giving up hope, I came across Atlantomed after extensive research. Even after the first session, I noticed a significant improvement, and I hardly had any complaints. I've had neck pain since the day I had the treatment, and it's been three months now with discomfort. Translation: In fact, the shoulder pain was briefly gone, but then came back even more - differently, strangely pulling into the head/upper head, my cervical spine has been cracking since then, I couldn't sleep anymore because my head couldn't be turned to the right or left while lying down, and I couldn't read anymore because it couldn't be supported (=pain). However, while standing, I can turn my head better to the right and left. I will definitely not undergo such an aggressive treatment again. I am now undergoing osteopathic treatment.				
Original: Tatsächlich waren die Schulterschmerzen kurz weg, danach umso mehr wieder da - anders, in den Kopf/Oberkopf seltsam hineinziehend, meine HWS knackt seitdem, ich konnte nicht mehr schlafen, weil mein Kopf im Liegen weder rechts noch links zu wenden war und auch nicht mehr lesen, weil man ihn nicht stützen durfte (=Schmerzen). Im Stehen allerdings kann ich den Kopf besser nach rechts und links wenden. Auf keinen Fall werde ich eine derart aggressive Behandlung nochmal machen lassen. Ich bin jetzt in osteopathischer Behandlung.

Translation: The treatment was a new experience. The device vibrates very strongly, but after a short time, you get used to it. It is not painful, just unfamiliar. The therapist proceeded very gently, explaining and yet very routinely and professionally. My problem with the thoracic spine has improved significantly. I have also become more flexible. Now I am giving my body more time and watching how further improvements develop.

Translation: I was undergoing treatment for TMD (jaw). For one year, I saw 2 osteopaths, 2 chiropractors, and had 3 months of physical therapy. It was already much better thanks to the physio. After the first treatment, I was impressed by the difference seen in the pictures before and after the treatment. I had a completely different posture. I experienced a type of muscle soreness for 3 weeks. However, no more tinnitus and hardly any jaw problems. A year prior, I had a back measurement (Medi-Mouse). When I told the therapist about my atlas treatment, she wanted to do another measurement. The result was proof for me. Posture competence improved by 91%, overall function improved by 44%. I shared this during my second appointment. I can only recommend the treatment. Conclusion after 3 months: jaw clicking completely gone, improved posture, tinnitus only during stress.

Ich hatte 3 Wochen eine Art Muskelkater. Dafür kein Tinnitus mehr und kaum noch Probleme mit dem Kiefer. Ich hatte ein Jahr zuvor eine Rückenmessung (Medi-Mouse). Als ich der Therapeutin von meiner Atlas Behandlung erzählt hatte, wollte sie nochmal eine Messung machen. Das Ergebnis war der Beweis für mich. Haltungskompetenz 91%verbessert Gesamtfunktion 44% verbessert.. Das habe bei meinem 2. Termin mitgeteilt. Translation: Over time, well-being is consolidating. Initially, I experienced a clear improvement, but the rest of my spine, after forty years of headaches, was evidently still suffering. Today, I am truly better and hardly take any medication, although I believe a slight rotation of the atlas is still present. Essentially, if these results hold through the winter, which for me is the most challenging period, I can say that the treatment has changed my life. I recommend it to everyone. Thank you.				
Original: Nel tempo si sta consolidando il benessere. All'inizio avevo avuto un giovamento netto, ma il resto della colonna dopo quarant'anni di mal di testa era evidentemente ancora sofferente. Sostanzialmente se questi risultati si consolidano anche nell'inverno, che per me è il periodo più problematico, posso dire che il trattamento mi ha cambiato la vita. Lo consiglio a tutti. Grazie

Translation: The ailments for which I consulted Atlantomed disappeared very quickly after the first session. I no longer had cervical problems when getting up in the morning, I was able to sleep at night without waking up to change position, and above all, I no longer had the very debilitating headaches I used to get after physical exertion involving the shoulders and neck or even a major stress event. This, for me, is a great victory because when the headache started, it would last for 3 days. Total incapacity to do or think. Tamara immediately identified a double misalignment in me and was very effective in her intervention while being very educational. I am delighted with the result, I feel like I've turned a dark page in my history. I can play sports again without fearing to trigger the infernal whirlwind of headaches. I understood that the body takes several months after the intervention to adapt to the new alignment and that the process will be gradual. In any case, I am already very satisfied! Thank you Tamara, thank you Atlantomed.				
Original: Les maux pour lesquels j'ai consulté Atlantomed ont disparus très rapidement après la première séance. Je n'avais plus de problèmes de cervicales au lever le matin, j'arrivais à dormir la nuit sans me réveiller pour changer de position et surtout je n'ai plus eu les maux de tête très handicapants que j'avais après un effort physique impliquant les épaules et la nuque ou même un gros coup de stress. Cela, pour moi, est une grande victoire car lorsque le mal de tête se déclenchait, j'en avais toujours pour 3 jours. Incapacité totale à faire ou à penser. Tamara a tout de suite identifié un double désalignement chez moi et a été très efficace dans son intervention tout en étant très pédagogique. Je suis ravie du résultat, j'ai l'impression d'avoir tourné une page sombre de mon histoire. Je peux à nouveau faire du sport sans craindre de déclencher le tourbillon infernal des maux de tête. J'ai compris que le corps mettait plusieurs mois après l'intervention pour s'adapter au nouvel alignement et que le processus sera progressif. Quoi qu'il en soit, je suis déjà très satisfaite! Merci Tamara, merci Atlantomed.

Translation: Hello, my complaints have significantly improved; after initial problems, many things have gotten better. However, some things have also worsened again, which is why I would consider a third treatment. Considering the many years I've learned to cope with the pain, it's not surprising that a 100% success doesn't occur in such a short time. Overall, the treatment was a great success, and I would (will) definitely recommend it. Regarding further treatment, I will consult with my Atlas therapist, also taking into account the initial consultation during the first treatment, which I found very informative and objective.				
Original: Hallo, meine Beschwerden sind erheblich besser geworden nach anfänglichen Problemen hat sich vieles verbessert. einiges hat sich jedoch auch wieder verschlechtert darum würde ich eine dritte Behandlung in Erwägung ziehen. Unter Berücksichtigung der vielen Jahre die ich mit den Schmerzen gelernt habe umzugehen ist es nicht verwunderlich das sich ein 100%tiger Erfolg nicht in so kurzer Zeit einstellt. Im gesamten war die Behandlung aber ein großer Erfolg und ich würde(werde)es auf jeden fall weiter empfehlen. Bezüglich einer weiteren Behandlung werde ich mich von meinem Atlas-Therapeuten beraten lassen auch unter Berücksichtigung des Vorgesprächs bei der ersten Behandlung was ich als sehr Informativ und Objektiv Empfunden habe.

Translation: I am very satisfied with the results obtained after the first treatment. I have two hernias and four protrusions that no longer allowed me to carry out my daily activities. I couldn't sleep at night due to back pain, to the point where I was almost exhausted and nervous. Your center was recommended to me, and after trying everything—osteopathy, massages, painkillers—I decided to try here as well. My back pain has improved, my daily life has improved, and my gastroesophageal reflux has even disappeared. The pain in my left hip is gone, and now I can sleep at night. I recommend it to everyone I know who has problems like mine. Lastly, Tamara is disarmingly professional; from the very beginning, there was a connection between us, and she explained how the treatment was done in a simple way. I can only say thank you to those who recommended it to me and to Tamara, who has helped me so much. THANK YOU THANK YOU THANK YOU THANK YOU INFINITELY

Translation: After my atlas correction, I can already notice significant improvements. My nightly headaches, which have troubled me for a long time, have almost disappeared. The neck pain, which especially occurred repeatedly when working at the screen, has also significantly improved – which noticeably eases my daily life. Another important reason for me to consider the atlas correction was two unexplained syncopes in the past. These have worried me, and although it is still too early for definitive statements, I am very hopeful that a positive development is possible here as well through the correction. I am very grateful for the improvement in my well-being so far and look forward to further developments with confidence.				
Original: Nach meiner Atlaskorrektur kann ich bereits spürbare Verbesserungen feststellen. Meine nächtlichen Kopfschmerzen, die mich lange Zeit geplagt haben, sind so gut wie verschwunden. Auch die Nackenschmerzen, die insbesondere beim Arbeiten am Bildschirm immer wieder auftraten, haben sich deutlich gebessert – was meinen Alltag spürbar erleichtert. Ein weiterer wichtiger Grund für mich, die Atlaskorrektur in Erwägung zu ziehen, waren zwei ungeklärte Synkopen in der Vergangenheit. Diese haben mir Sorgen bereitet, und obwohl es noch zu früh für abschließende Aussagen ist, hoffe ich sehr, dass auch hier durch die Korrektur eine positive Entwicklung möglich ist. Ich bin sehr dankbar für die bisherige Verbesserung meines Wohlbefindens und sehe der weiteren Entwicklung mit Zuversicht entgegen.

It has been the best choice i've done after nearly 7 years of neck pain, headaches and shoulder/arm pain. I have seen so many specialists from neuro surgeon to ENT, none of them was able to understand even if whe i look back at my CT scan and 3D MRI the atlas misalignment was there. After the 1st treatment, my continuous headaches and heavy weight feeling on my head was gone and i was able to turn the head much better after years of blockage. I managed to finally quit my daily drugs like gabapentine, codeine and tramadol. I am not symptom free yet but i know that the body has to regenerate slowly and the improvement is already huge, i can feel normal a bit. Johannes is a great person with empathy and he took the time for a correct adjustment. I recommend this treatment to anyone who has already try so many conventional doctors without success. It's a shame there is no atlantomed specialist in France or in Belgium but the travel to Germany was definitely worth it. Thank you again to Johannes for saving me from so many pain it was the best decision of my life! Kevin

Translation: After the first treatment, I already felt a significant improvement in my head and neck pain. When I came to the second session with you, I had terrible back pain. At that time, I had already been on sick leave for three weeks and could barely walk. The doctors in my area did not help me. Only painkillers were prescribed and I was fobbed off. No doctor explained to me what I had. You examined me thoroughly and explained that my sacroiliac joint (I'm not sure if it's spelled correctly) was blocked. After an extensive treatment, I was able to walk much better, and the next day the pain was almost gone. I was and am very grateful for that. I would always recommend the practice. Every kilometer you have to drive is worth it. Best regards, G. Scharf				
Original: Ich habe nach der ersten Behandlung schon eine deutliche Besserung meiner Kopf - und Nackenschmerzen verspürt. Als ich zur zweiten Sitzung bei ihnen war, hatte ich wahnsinnig Rückenschmerzen. Ich war zu dem Zeitpunkt schon drei Wochen krank geschrieben und konnte kaum laufen. Die Ärzte in meiner Umgebung haben mir nicht geholfen. Es wurden nur Schmerzmittel verschrieben und vertröstet. Kein Arzt hat mir erklärt , was ich habe. Sie haben mich gründlich untersucht und mir erklärt das mein Iliosakralgelenk (bin mir nicht sicher , ob es richtig geschrieben ist) blockiert ist. Nach einer ausgiebigen Behandlung konnte ich viel besser laufen und am nächsten Tag waren die Schmerzen fast weg. Ich war und bin sehr dankbar dafür. Ich würde die Praxis immer wieder weiter empfehlen. Da lohnt sich jeder Kilometer , den man fahren muss. LG G.Scharf

Translation: The atlas correction was the best thing that could have happened to me. After 20 years of painful tension, headaches, and significant daily limitations, especially in sports, I am now free of complaints. Only slight headaches after waking up, which are caused by the overnight positioning and also disappear after morning movement, remain. The initial exacerbations were also manageable - both shoulders hurt at night for a few days, and I had the impression that my body/head needed to adjust first. Particularly noticeable was the regained mobility in the shoulder with a "Frozen Shoulder" history and the disappeared tensions. A big thanks to Mr. Reinfandt, who explained everything to me in detail beforehand and carried out the treatment so successfully. Many heartfelt thanks!!!				
Original: Die Atlaskorrektur war das Beste, was mir hat passieren können. Nach 20 Jahren schmerzhafter Verspannungen, Kopfschmerzen und erheblichen täglichen Einschränkungen besonders beim Sport, bin ich nun beschwerdefrei. Lediglich leichte Kopfschmerzen nach dem Aufwachen, die aber durch die Lagerung über Nacht verursacht werden und auch nach morgendlicher Bewegung verschwinden, sind übrig geblieben. Die Erstverschlimmerungen waren auch überschaubar - beide Schultern haben mir einige Tage in der Nacht weg getan und ich hatte den Eindruck, mein Körper / Kopf muss sich erstmal justieren. Besonders auffällig war die wiedergewonnene Beweglichkeit in der Schulter mit "Frozen Shoulder" Historie und die verschwundenen Verspannungen. Ein Hoch auf Herrn Reinfandt, der mir alles im Vorfeld eingehend erklärt hat und die Behandlung so erfolgreich durchgeführt hat. Vielen herzlichen Dank !!!

Translation: Good morning, unfortunately, as I told the therapist at the beginning of the second treatment, after the first treatment I did not feel any improvement. She told me that often the benefits appeared after the second treatment, but in my case, it was not so, and to this day, I am very sorry to note (given the high cost of the treatments) that my situation has not improved in the slightest and is exactly as it was before the treatments. Therefore, personally, I have not gained any benefit from the treatments and I am understandably disappointed by the experience. Best regards, Simona Bubola				
Original: Buongiorno, purtroppo, come detto alla terapista all'inizio del secondo trattamento, dopo il primo trattamento non avevo avvertito alcun miglioramento. Lei mi ha detto che spesso i benefici si manifestavano dopo il secondo ma nel mio caso non è stato così e, a tutt'oggi, mi spiace molto constatare (visto il costo elevato dei trattamenti) che la mia situazione non è minimamente migliorata ed è esattamente come prima dei trattamenti. Quindi,personalmente non ho tratto alcun beneficio dai trattamenti e sono rimasta comprensibilmente delusa dall'esperienza. Cordiali saluti Simona *********

Original: Die Atlantomed-Behandlung ist von Frau Klappstein-Bode sehr gut durchgeführt worden. Mir hat besonders die Ruhe und Ausgeglichenheit der Therapeutin gefallen. Das gewünschte Ziel der Atlaskorrektur ist nach den Behandlungen erreicht worden. Daraufhin ist die erneute Korrektur vollzogen worden, die ich allerdings nicht noch einmal überprüfen ließ. Alles in allem gesehen, kann ich diese Methode empfehlen.

Translation: With this review, I am evaluating the entire treatment process, not just the second or in my case the third session. The initial situation: For years, I have struggled with muscular imbalances. These have not only affected my body alignment but also the overall energy flow in my body. (Lack of drive, tiredness, brain fog, etc.) To counteract this, I have been undergoing chiropractic treatment for years and have also tried to combat these imbalances with stretching exercises. After the chiropractic interventions, everything was fine for a few days, up to two weeks. Then, it was always noticeable how the body fell back into its crooked posture and the problems increased again. Through independent research, I came across the Atlas therapy by Atlantomed. While studying their website, I found myself relating to many points, which led me to decide to try this therapy. First session: I don't think I need to write about the basic procedure of the session, as the process is described in detail on Atlantomed's pages. During the first session, after the relaxation massage, we concluded that the muscles in the neck area remained so tense despite the massage that it was not possible to safely feel the atlas vertebra. Honestly, this was disappointing to me at the time, but it was a circumstance that had to be accepted. So, we decided to count this treatment as preparatory and to make a new attempt about 4-6 weeks later. My therapist told me that I should feel an increasing relaxation of the neck muscles over the next few weeks. This gradually became noticeable. A first partial success. First session part 2: After the initial successes in muscle relaxation, we moved on to the second appointment. Before the relaxation massage, the therapist could already feel the atlas vertebra much better. The subsequent relaxation massage then actually brought the desired success, and my atlas could be safely felt. As feared, it turned out that the atlas was indeed slightly displaced. The subsequent correction was very pleasant. A real aha moment came with the follow-up photo documentation comparing it to the initial state before the treatment. Without feeling like I had changed anything about my posture, I was actually standing almost straight. A very uplifting feeling, even if the muscles didn't immediately want to get used to the new state. Between the first and the second treatment, I adhered to the recommended rest periods. Shortly before the second session, I also started balanced functional training to sustainably train the muscles and erase the stored patterns of poor posture. Here too, my therapist provided valuable guidance with exercises to correct the trained poor posture after the first session. Second session: Overall, my well-being has continuously improved since the first session. The relaxation massage in the second session was pleasantly familiar. I am still amazed at how deeply the massage penetrates the muscles. During the subsequent check of the atlas vertebra, no further displacement was found. Now, about three months after the treatment, I can happily say that many of the initially mentioned problems have almost disappeared. In addition to the treatment, the continuous functional training of the overall musculature contributes positively here. Fortunately, I now feel that the training is supportive. Before the correction, I generally felt that exercise worsened my symptoms. This alone is an invaluable benefit. I don't want to hide the fact that despite the constant...

Original: Mit dieser Bewertung beurteile ich den gesamten Behandlungsweg, nicht nur die zweite in meinem Fall die dritte, Sitzung. Die Ausgangslage: Seit Jahren hatte ich Probleme mit Muskulären Dysbalancen zu kämpfen. Diese haben sich nicht nur auf die Körperstatik, sondern auch auf den gesamten Energiefluss im Körper ausgewirkt. (Antriebslos, Müde, Brainfog, etc.) Um dem entgegenzuwirken bin ich über Jahre in chiropraktischer Behandlung, und habe zusätzlich mit Dehnübungen versucht gegen diese Dysbalancen anzuarbeiten. Nach den chiropraktischen Eingriffen war für ein paar Tage, bis zu zwei Wochen alles in Ordnung. Dann konnte man immer wieder beobachten, wie der Körper in seine schiefe Haltung zurück fiel und die Probleme wieder zunahmen. Über eigenständige Recherchen bin ich auf die Atlastherapie von Atlantomed aufmerksam geworden, während des Studiums der Hompage habe ich mich in vielen Punkten wiedergefunden, so dass ich mich entschloss diese Therapie zu probieren. Erster Sitzung: Über den grundsätzlichen Ablauf der Sitzung brauche ich denke ich mal nichts zu schreiben, der Ablauf ist auf den Seiten von Atlantomed ausführlich beschrieben. Im Zuge der ersten Sitzung kamen wir nach der erfolgten Lockerungsmassage zu dem Entschluss, dass die Muskulatur im Halsbereich trotz der Massage so verhärtet blieb, dass ein sicheres Ertasten des Atlaswirbels nicht möglich war. Ehrlicher Weise war dies für mich zu dem Zeitpunkt eine Enttäuschung, aber ein Umstand den man akzeptieren musste. So haben wir uns entschlossen diese Behandlung als vorbereitende Behandlung zu berechnen und ca. 4-6 Wochen später einen neuen Anlauf zu starten. Meine Therapeutin sagte mir, dass ich über die nächsten Wochen eine zunehmende Entspannung der Halsmuskulatur spüren sollte. Was auch nach und nach spürbar wurde. Ein erster Teilerfolg. Erste Sitzung Teil 2: Nach den ersten eingetretenen Erfolgen der Muskelentspannung ging es jetzt zu dem zweiten Termin, vor der Lockerungsmassage konnte die Therapeutin den Atlaswirbel schon deutlich besser spüren, die folgende Lockerungsmassage brachte dann tatsächlich den gewünschten Erfolg und mein Atlas konnte sicher ertastet werden. Wie befürchtet, stellte sich dabei heraus, dass der Atlas tatsächlich leicht verschoben war. Die anschließende Korrektur verlief sehr angenehm. Einen wirklichen Aha-Effekt brachte die anschließende Fotodokumentation mit dem Vergleich zu dem Ausgangszustand vor der Behandlung. Ohne das Gefühl zu haben etwas an meiner Haltung geändert zu haben stand ich tatsächlich fast grade. Ein sehr aufbauendes Gefühl, auch wenn sich die Muskulatur nicht direkt mit dem neuen Zustand anfreunden wollte. Zwischen der ersten und der zweiten Behandlung habe ich die empfohlenen Ruhezeiten entsprechend eingehalten, kurz vor der zweiten Sitzung habe ich zusätzlich noch mit einem ausgewogenen Funktionstraining begonnen um die Muskulatur nachhaltig zu trainieren und die gespeicherten Muster der Fehlhaltung zu löschen. Auch hier hat mir die Therapeutin nach der ersten Sitzung wertvolle Hinweise mit Übungen zur Korrektur der antrainierten Fehlhaltung. Zweite Sitzung: Insgesamt hat sich mein Wohlbefinden seit der ersten Sitzung kontinuierlich verbessert. Die Lockerungsmassage in der zweiten Sitzung war wieder wie gewohnt angenehm. Ich bin nach wie vor begeistert wie tief die Massage in die Muskulatur eindringt. Bei der Anschließenden Überprüfung des Atlaswirbels, konnte keine nachträgliche Verschiebung festgestellt werden. Nun, ca. drei Monate nach der erfolgten Behandlung kann ich erfreut sagen, dass viele der eingangs genannten Probleme nahezu verschwunden sind, zusätzlich zur Behandlung trägt hier das kontinuierliche Funktionstraining der Gesamtmuskulatur positiv bei. Ich habe aber erfreulicher Weise das Gefühl, jetzt wirkt das Training unterstützend. Vor der Korrektur hatte ich grundsätzlich das Gefühl Sport trägt zu Verschlimmerung meiner Sympthome bei. Allein das ist schon ein unschätzbarer Mehrwert. Nicht verschweigen möchte ich, dass es trotz der stetigen

Barbara and the staff are friendly people. However, the treatment had a minor impact on me. I wish she would've asked more about the situation and explain less about the things that i've anyway documented about before the treatment - as we all patients do i guess, to asses more if it's truly an atlas problem, or rather, for example the bite is the cause of the issue (as in my case). More thorough assessment, less rush to the actual correction. Other than that, i believe and i felt that they are truly interested in helping their patients.

Translation: My whole family is glad to have heard about Atlas correction from Frau Klappstein-Bode. My husband has been dealing with dizziness for years, and he went from doctor to doctor, and no one could or wanted to help. But... luckily, the dizziness went away with the Atlas correction, and he can keep his job. Frau Klappstein-Bode explains everything very precisely and takes her time calmly and answers every question clearly. The treatment doesn't involve any jerky movements, which many people are afraid of. I can only speak for my whole family, take the step whether it's about dizziness, headaches, neck pain... etc.				
Original: Meine ganze Familie ist froh,von Atlaskorrektur bei Frau Klappstein-Bode gehört zu haben. Mein Mann hat seid Jahren mit Schwindel zu tun und er lief von Arzt zu Arzt und keiner konnte oder wollte helfen. Aber..... durch die Atlaskorrektur ging der Schwindel zum Glück weg und er kann seinen Arbeitsplatz behalten. Frau Klappstein-Bode erklärt alles ganz genau und nimmt sich in Ruhe Zeit und beantwortet wirklich jede Frage verständlich. Die Behandlung ist nix mit ruckartigen Bewegungen,wo viele Angst vor haben. Kann nur für meine ganze Familie sprechen,wagen sie den Schritt egal ob es um Schwindel,Kopfschmerzen,Nackenschmerzen.....usw geht.

The therapist is very kind and knows how to make you feel comfortable right away. Pleasant treatment. The discomfort, neck pain, and headaches have been reduced. However, there hasn't been much change in terms of the feeling of instability. We will wait a little longer, and I might try another session. Overall, a positive experience.

My lower back pain, which was the reason why I requested the treatment, is still there. I have gained in mobility and the pain does not irradiate in the leg anymore. But it is difficult to say that it is thanks to the Atlas treatment since I have implemented a robust workout planning since last August, where I do yoga, pilates and weight lifting. Since January, I have a routine of daily workout: 10 minutes weight lifting and 20-30 min yoga or pilates every single morning. I feel this has contributed to the improvement to a greater extent than the Atlas correction. I have seen no improvement with the second treatment compared to the first treatement.

Translation: After 10 months of constant headaches and migraine attacks aggravated by dizziness and sudden vertigo, I found relief immediately after the treatment. The rotation of my neck had been limited on one side for years, and cervical pain was a constant part of each day. In the first few days after the treatment, neck mobility was still limited, but not as before. Within a few weeks, I was able to look over my shoulder again, something I hadn't been able to do for years. After two months, I'm already much, much better: I haven't had a headache for three weeks, and the mobility of my neck and muscle pain (trapezius and cervical) decrease week by week.				
Original: Dopo 10 mesi di mal di testa costante e attacchi di emicrania aggravati da giramenti e vertigini improvvise, già da subito dopo il trattamento ho trovato sollievo. La rotazione del collo era limitata da un lato da anni e i dolori cervicali una costante dei ogni giornata. I primi giorni dopo il trattamento la mobilità del collo era ancora limitata, ma non come prima. A distanza di poche settimane riuscivo nuovamente a guardare oltre la spalla, cosa che non potevo più fare da anni. A distanza di due mesi sto già molto molto meglio: non ho più mal di testa da tre settimane e la mobilità del collo e i dolori alla muscolatura (trapezio e cervicali) diminuiscono di settimana in settimana.

Translation: First of all, I would like to praise Ms. Zink! She is really very friendly and competent. I find the whole effort with taking photos and such questionable. Somehow the transfer didn't work, and you couldn't really see any before/after differences. I also find the approach with the 1st and 2nd appointment and the pricing questionable. During my 2nd appointment, it was determined that the atlas was in the correct position. This was corrected during the 1st appointment. So why isn't the appointment over, you pay for the check of the correct atlas position, and that's it. Why is there now endless massaging, exercises, etc., just to pass the time and end up with a high fee? Unfortunately, the atlas correction didn't help me health-wise, but it was worth a try. By the way, I didn't want to rate at all, but after the 3rd request, I have now done so. ;-)				
Original: Als Erstes möchte ich Frau Zink loben! Sie ist wirklich sehr freundlich und kompetent. Fraglich finde ich den ganzen Aufwand mit dem Fotos machen und so. Irgendwie klappte die Übertragung nicht und so wirklich konnte man dann auch keine vorher / nachher Unterschiede sehen. Ebenso fraglich finde ich das mit dem 1. und 2. Termin und der Preisgestaltung. Bei meinem 2. Termin wurde festgestellt dass der Atlas richtig sitzt. Dieser wurde beim 1. Termin korrigiert. Warum ist dann der Termin nicht zu Ende, man zahlt die Kontrolle für den korrekten Atlas-Sitz und gut ist. Warum wird jetzt ewig massiert, Übungen gemacht etc. nur dass die Zeit umgeht und man eben auf eine hohe Gebühr kommt? Leider konnte mir die Atlaskorrektur gesundheitlich nicht helfen, aber einen Versuch war es wert. Bewerten wollte ich übrigens gar nicht, aber nach der 3. Aufforderung habe ich es nun getan. ;-)

Translation: I decided on the atlas correction because of my dizziness that has lasted for 1 1/2 years, left-sided blockage in the cervical spine, shoulder, and tooth pain, since no doctor has been able to help me or find anything. The therapist was 100% attentive to me and my problems. There was a proper preliminary examination. The treatment is pleasant, almost painless. Immediately after the treatment, I noticed a positive change. In the first 2 weeks, I was almost free of pain and dizziness, then it started again, but not nearly to the extent as before, so I scheduled a second appointment 4 weeks later.				
Original: Ich habe mich wegen meinem seit 1 1/2 Jahren andauernden Schwindel, linksseitige Blockade in der HWS, Schulter- und Zahnschmerzen für die Atlaskorrektur entschieden, da mir kein Arzt weitergeholfen bzw. etwas gefunden hat. Der Therapeut war 100% bei mir und meinen Problemen. Es gab eine ordentliche Voruntersuchung. Die Behandlung ist angenehm, nahezu schmerzfrei. Schon direkt nach der Behandlung hatte ich eine positive Veränderung. In den ersten 2 Wochen war ich nahezu schmerz- und schwindelfrei, dann ging es wieder los, aber lange nicht mehr in dem Ausmaß wie vorher, so dass ich nochmal einen 2. Translation: I was very curious and also a bit excited about what to expect. After repeatedly experiencing severe headaches caused by shoulder-neck tension, I stumbled upon Atlantomed by chance. With Alexandros, I was in very good hands. Before the treatment, I had read everything the website had to offer. I would recommend this to everyone, as it helps you know what to expect. Alexandros has an incredibly extensive knowledge of anatomy. So I understood why things were the way they were with me. My atlas vertebra was indeed displaced and twisted. Even after my first treatment, I felt that something had changed in my shoulder-neck area. After the second treatment, the whole situation improved even more. I have had no significant complaints since then. Dear Alexandros, I am very grateful for your treatment, YOU are amazing.				
Original: Ich war sehr gespannt und auch ein bisschen aufgeregt, was mich erwartet. Nach immer wiederkehrenden starken Kopfschmerzen die durch Schulter-Nackenverspannung ausgelöst wurden habe ich durch Zufall zu Atlantomed gefunden. Bei Alexandros war ich in sehr guten Händen. Ich hatte mir vor der Behandlung alles durchgelesen, was die Internetseite zu bieten hatte. Das würde ich auch jedem empfehlen, denn so weiß man bereits was auf einen zukommt. Alexandros hat ein unheimlich großes anatomischen Wissen. So wusste ich wieso es bei mir so ist, wie es ist (war). Mein Atlaswirbel war tatsächlich verschoben und verdreht. Schon nach meiner 1. Behandlung spürte ich, dass sich in meinem Schulter- Nackenbereich etwas verändert hat. Nach der 2. Behandlung hat sich das ganze nochmals verbessert. Ich habe seitdem keine nennenswerten Beschwerden mehr. Lieber Alexandros, ich bin sehr dankbar für Deine Behandlung, DU bist spitze.

Translation: The Atlantomed treatment helped me get out of the critical and debilitating phase of my issues, listing only the main ones: constant inflammation in the cervical area and trapezius, dizziness with minimal effort, and muscle tension headaches of all kinds. About a month after the second treatment (complete cycle), I can say that I've significantly improved my quality of life, with the symptoms mentioned above reduced by about 65-70%. I haven't yet achieved complete recovery, but I've had significant results (I've resumed physical activity) and the hope that I can continue to improve and work on the problem until it's resolved. It's also worth mentioning that I previously tried other methods with very poor results. An interesting note, right after the first treatment with vibroresonance, colors appeared more vivid to me, probably due to better blood flow to the head. For now, this is my experience. Thank you, Luca.				
Original: Il trattamento Atlantomed mi ha aiutato ad uscire dalla fase critica e invalidante delle mie problematiche, elenco solo le pricncipali: infiammazione costante alle cervicali e al trapezio, sensazione di sbandamento al minimo sforzo e mal di testa muscolo tensivi di ogni tipo. Dopo circa un mese dal secondo trattamento (ciclo completo) posso dire di aver migliorato la qualità della mia vita in maniera sensibile, la sintomatologia esposta sopra si è ridotta di circa il 65-70%. Non ho ancora raggiunto la guarigione completa però ho avuto risultati significativi (ho ripreso l'attività fisica) e la speranza che posso continuare a migliorare e lavorare sul problema fino alla risoluzione. È anche doveroso dire che precedentemente mi sono curato con altre metodologie con scarsissimi risultati. Una curiosità, subito dopo il primo trattamento con vibrorisonanza i colori mi apparivano in maniera più vivida, probabilmente grazie al miglior afflusso di sangue alla testa. Per il momento questa è la mia esperienza. Grazie, Luca.

Translation: The second treatment focused very precisely once again on the position of the atlas and the overall body posture. All blockages and ailments have thus been resolved, allowing my body to truly heal. The results immediately after the treatment, as well as months later, are simply phenomenal. Many thanks to Mr. Gorgulla for the excellent program.				
Original: Die zweite Behandlung beschäfftigte sich nochmal sehr präzise mit der Atlasposition und auch der ganzheitlichen Körperhaltung. Translation: For me, the treatment was not good at all. During the process, it was very painful, and afterward, I unfortunately experienced a significant worsening of my symptoms, not just as an initial aggravation, but over several weeks. I cannot recommend the method. I would have wished for more calmness and balance from the therapist; instead, it was very quick and hectic. After 60 minutes, I was done but still paid for 75 minutes. On the positive side, the therapist recommended dizziness exercises that helped me.				
Original: Für mich war die Behandlung überhaupt nicht gut. Währenddessen hat es mir sehr weh getan und danach hatte ich leider eine deutliche Verschlechterung meiner Symptome und nicht als Erstverschlimmerung, sondern über mehrere Wochen hinweg. Ich kann die Methode nicht empfehlen. Vom Therapeuten hätte ich mir mehr Ruhe und Ausgeglichenheit gewünscht, stattdessen ging es sehr schnell und hektisch zu. Nach 60 Minuten war ich fertig und habe trotzdem für 75 Minuten bezahlt. Positiv war, dass mir der Therapeut noch Schwindelübungen empfohlen hat, die mir geholfen haben.

Translation: After two years of excruciating headaches and dizziness following a sports injury, I almost thought there was no solution for my ailments. All the therapies I tried before (physio, chiropractic, Atlas Orthogonal, Blair Upper Cervical) had no lasting effect. The Atlantomed technique to reposition the C1 and keep it in place is the only one so far that has truly worked. One can actually speak of healing, and I wish I had discovered this therapy much earlier for myself. I cannot be grateful enough for the quality of life I now have again.				
Original: Nach zwei Jahren quälender Kopfschmerzen und Schwindel in Folge eines Sportunfalls, hatte ich fast gedacht dass es keine Lösung für meine Beschwerden gibt. Alle Therapien die ich zuvor probierte (Physio, Chiropraktie, Atlas-Orthogonal, Blair Upper Cervical). Nichts war von Dauer. Die Atlantomed Technik um den C1 wieder in die richtige Position zu bringen und auch zu halten, ist bisher die einzigste die es wirklich bewirkt hat. Man kann tatsächlich von Heilung sprechen und ich wünschte ich hätte diese Therapie viel früher für mich entdeckt. Ich kann nicht dankbar genug sein für die Lebensqualität die ich jetzt wieder habe.

Translation: The treatment has benefited me in terms of improving jaw tension which, thanks to the "adjustment" of the dental occlusion, has improved, and for this reason, after 14 years of use, I no longer need the bite for the moment. Following a course of 10 physiotherapy sessions and exercises to improve posture, I definitely feel better as I no longer have tingling in my right arm and face. I am, therefore, satisfied with the choice I made and thank Davide for the attention shown towards me.				
Original: Il trattamento mi ha dato giovamento in termini di miglioramento della tensione mandibolare che, grazie alla “sistemazione “ dell’occlusione dentale e’ migliorata motivo per cui, dopo 14 anni di utilizzo, per il momento , non mi serve più il bite. Seguendo un percorso di 10 sedute di fisioterapia e della ginnastica per migliorare la postura, mi sento senz’altro meglio in quanto non ho più formicolio al braccio destro e sul viso. Sono, quindi, soddisfatta della scelta fatta e ringrazio Davide per l’attenzione dimostrata nei miei confronti.

Translation: The combination of atlantomed and therapist was very good. The powerful, targeted use of the device was really painful and achieved very good results. Reclination is now possible again after a long time. Likewise, a significantly greater rotation in both directions. What was interesting for me was that I myself had the urge that "back there at the head" needed to be worked on with more force and pressure. And I was able to experience that during the treatment. A truly liberating treatment. Thank you, it convinced me!! :))

Translation: The Atlas correction has absolutely exceeded my expectations! I had been experiencing panic attacks for half a year and had little hope that they would disappear through treatment - but after the first session, not only were they gone: I also had significantly less neck and headache, and my irritable bowel syndrome improved. For years, I had constantly recurring SI joint blockages, which were particularly annoying during sports. I was repeatedly adjusted or did my exercises, and every week the blockage returned. What can I say? Since the Atlas correction, the complaints have vanished. My spine is back in alignment, and I feel the positive effects holistically on my health. My therapist was very friendly and competent. His calm and relaxed manner took away all my fears in advance, and he explained every step in detail. I found the vibrating massage to be very strong, but still pleasant. The vertebra correction itself is briefly uncomfortable but bearable, and the therapist is always attentive and considerate. I felt a bit overwhelmed, tired, and like I was wrapped in cotton after the treatment. This was followed by 2 days of quite severe "initial aggravation" before everything turned for the better. I can only recommend the Atlantomed treatment, but I confirm that you also have to mentally commit to it! Remodeling processes take place in the body that require time and are not always pleasant, but ultimately lead to recovery.				
Original: Die Atlaskorrektur hat meine Erwartungen absolut übertroffen! Ich hatte seit einem halben Jahr Panikattacken und mir wenig Hoffnung gemacht, dass diese durch die Behandlung verschwinden - bereits nach der ersten Sitzung waren aber nicht nur selbige weg: ich habe deutlich weniger Nacken- und Kopfschmerzen sowie mein Reizdarm hat sich gebessert. Seit Jahren hatte ich ständig wiederkehrende ISG-Blockaden, die besonders beim Sport lästig waren. Immer wieder wurde ich eingerenkt oder machte meine Übungen, jede Woche kehrte die Blockade zurück. Was soll ich sagen? Seit der Atlaskorrektur sind die Beschwerden wie weggeblasen. Meine Wirbelsäule ist wieder im Lot, und die positiven Auswirkungen spüre ich ganzheitlich an meiner Gesundheit. Mein Therapeut war sehr freundlich und kompetent. Seine ruhige und entspannte Art nahmen mir alle Ängste im Vornherein und er erklärte jeden Schritt ganz genau. Die vibrierende Massage empfand ich als sehr sehr kräftig, aber noch angenehm. Die Wirbelkorrektur selbst ist zwar kurz unangenehm, aber aushaltbar und der Therapeut dabei stets aufmerksam und rücksichtsvoll. Ich war nach der Behandlung etwas erschlagen, müde und wie in Watte gepackt. Es folgten 2 Tage mit einer recht heftigen "Erstverschlimmerung", bevor sich alles zum Guten wendet. Ich kann die Atlantomed-Behandlung nur empfehlen, bestätige aber, dass man sich auch mental darauf einlassen muss! Im Körper finden Umbauprozesse statt, die Zeit brauchen und nicht immer angenehm sind, aber letztlich zur Genesung führen.

Translation: Generally, I am satisfied with the result. Immediately afterwards, I am always pain-free for a while. Unfortunately, my atlas does not stay in place despite the now completed jaw correction. This means that I have to repeatedly go for atlas correction, which is very costly in the long run. I hope that the atlas will eventually stay in place.				
Original: Generell bin ich mit dem Ergebnis zufrieden. Ich bin direkt danach immer für eine Zeit schmerzfrei. Nur leider bleibt mein Atlas trotz mittlerweile abgeschlossener Kieferkorrektur nicht an seinem Platz. Translation: I am definitely convinced of the treatment to correct the atlas vertebra. Even though I still suffer from migraines, they have at least changed, and there remains a spark of hope that it just needs more time. After all, I suffered from severe migraines with aura for 23 years. During the treatment, a pronounced misalignment of my atlas vertebra was discovered. For my 10-year-old son, who also already had a few migraine attacks with aura, no attacks have occurred since the correction. That is a huge success.				
Original: Ich bin definitiv überzeugt von der Behandlung den Atlaswirbel zu korrigieren. Auch wenn ich noch immer unter Migräne leide, hat sich diese zumindest verändert und es bleibt ein Funke Hoffnung, dass es einfach noch Zeit braucht. Immerhin litt ich 23 Jahre unter starker Migräne mit Aura. Und bei der Behandlung wurde eine ausgeprägte Fehlstellung meines Atlaswirbels entdeckt. Bei meinem 10 jährigen Sohn, der auch bereits ein paar Migräneanfälle mit Aura hatte, sind seit der Korrektur keine Attacken mehr aufgetreten. Das ist ein riesen Erfolg.

Translation: After a long search and usually only short-term improvement through various treatments, I came across atlas correction. With Mr. Kraft, I immediately felt understood and comfortable. The questionnaire before the treatment is detailed and gave me confidence that everything relevant to me is known to the therapist. The examination and preparation were thorough, with enough explanations and detail. I found the loosening treatment to be intensive but not painful, and the correction was not painful. Immediately after the first session, an improvement was clearly noticeable, and since the second session, I have been almost permanently pain-free and, most importantly for me, "relieved." Should I (which I hope not) feel a deterioration again, Mr. Kraft would be my first point of contact. I was long skeptical about letting anyone near my atlas, as statements from doctors and other physiotherapists were always rather negative. Today, I wish I had gone earlier, as it would have saved me some attempts and costs. I was very pleased and encouraged that the results are so clearly visible in the photos. Thank you very much, Mr. Kraft!				
Original: Nach langer Suche und mit meist nur kurzfristiger Verbesserung durch verschiedene Behandlungen bin ich auf die Atlaskorrektur gestoßen. Bei Herrn Kraft habe ich mich sofort verstanden und wohl gefühlt. Der Fragebogen vor der Behandlung ist ausführlich und gab mir Sicherheit, dass alles bei mir Relevante dem Therapeuten bekannt ist. Die Untersuchung und die Vorbereitung war sorgfältig, mit genügend Erklärungen und ausführlich. Die Behandlung zur Lockerung empfand ich als intensiv aber nicht schmerzhaft, die Korrektur war nicht schmerzhaft. Sofort nach der ersten Sitzung war eine Verbesserung deutlich spürbar, seit der zweiten Sitzung bin ich fast dauerhaft schmerzfrei und für mich am wichtigsten „gelöst“. Sollte ich (was ich nicht hoffe) wieder eine Verschlechterung spüren, wäre Herr Kraft meine erste Anlaufstelle. Ich war lange skeptisch, jemanden an meinen Atlas „zu lassen“, die Aussagen bei Ärzten und anderen Physiotherapeuten war immer eher negativ. Heute würde ich mir wünschen, ich wäre früher hingegangen, mir wären einige Versuche und Kosten erspart geblieben. Dass die Ergebnisse auf den Fotos so deutlich sichtbar sind hat mich sehr gefreut und bestärkt. Vielen Dank, Herr Kraft!

Translation: The first days after the atlas correction were characterized by fatigue and mild muscle soreness in the neck muscles. The treatment was carried out due to recurring dizziness after all other conservative measures, including acupuncture, medication therapy, and psychotherapy, did not bring lasting improvement. This had already led to a significant restriction of social life. In the upright MRI, evidence of an atlas rotation to the left and tilting in the horizontal plane. After the first correction, moderate improvement in findings with more ups and downs of symptoms. After nearly 5 weeks, a follow-up examination and minor readjustment. In the following weeks, the intervals between "dizzy days" became longer, and now after three months (without any additional supplementary therapy), the ratio between stable, symptom-free days and days with significantly reduced symptoms is about 75% to 25%. Starting next week, there will be a needs-based, finding-stabilizing co-care by an experienced medical osteopath. Retrospectively, I must say that the atlas correction was a positive turning point in my 16-month illness course so far. I am a surgeon myself (retired) and critically evaluated everything.

Original: Die ersten Tage nach der Atlaskorrektur waren geprägt durch Müdigkeit und eine leichten Muskelschmerz der Halsmuskulatur. Die Behandlung war erfolgt auf Grund eines wiederkehrenden Benommenheitsschwindels nachdem alle anderen konservativen Maßnahmen einschließlich Akupunktur, medikamentöser Therapie und Psychothrrapie keine dauerhafte Besserung brachten. Das hatte bereits zu einer deutlichen Einschränkung des sozialen Lebens geführt. Im upright MRT Nachweis einer Atlasdrehung nach links und Verkippung in der Horizontalen. Nach der ersten Korrektur mäßige Befundbesserung mit einem mehr Auf und Ab der Symptome. Nach knapp 5Wochen Kontrolluntersuchung und kleine Nachkorrektur. In den folgenden Wochen wurden die Abstände zwischen den „Schwindeltagen“ größer, nach jetzt drei Monaten (ohne eine ergänzende Zusatztherapie) beträgt das Verhältnis zwischen stabilen, symptomfreien Tagen und Tagen mit deutlich geminderter Symtomatik etwa 75% zu 25%. Ab nächster Woche erfolgt eine bedarfsorientierte befundstabilisierende Mitbetreuung durch einen erfahrenen ärztlichen Osteopathen. Retrospektiv muß ich sagen, das die Atlaskorrektur ein positiver Wendepunkt in meinem bisher 16-monatigem Krankheitsverlauf war. Ich bin selber Chirurg (i.R.) und hab alles kritisch bewertet.

Translation: Good morning, as I also communicated to you, I was satisfied with the first treatment since almost all symptoms had almost disappeared. However, during the second session, something went wrong. I'm not sure if the massage disturbed something that had stabilized, and unfortunately, now I've started having strong tensions again, as before, in the trapezius and tensions. Unfortunately, I am not very satisfied now. I will consider whether to return for another session at your practice. Thank you.				
Original: Buongiorno, come anche a voi comunicato sono rimasto soddisfatto del primo trattamento in quanto quasi tutti sintomi erano quasi spariti, poi successivamente nella seconda seduta qualcosa è andato storto, non so se il massaggio abbia smosso qualcosa che si era stabilizzato e purtroppo adesso ho ricominciato ad avere forti tensioni come in precedenza ai trapezi e tensioni. Purtroppo adesso non sono molto soddisfatto a riguardo. Rifletterò se tornare a fare ancora una seduta presso i vostri studi. Grazie

Translation: Persistent trapezius pain for years, digestive issues, headaches, arm pain, stiff neck, dizziness, nausea. Test after test: even there, different reports from the same examination. No hernias, yes hernias, in the second or not in the third or maybe lower, but never mention the FIRST vertebra!!! Useless therapies, money wasted, and guaranteed discomfort, then the breakthrough with two sessions. It would be enough to practice doubt in one's life, ignoring the opinion of a Doctor trapped in their conventional medical enclosure to find the right solution. What can I say...as far as I'm concerned, I finally feel well and it's all thanks to Atlantomed.				
Original: Dolori fissi al trapezio per anni, disturbi digestivi, mal di testa, dolori al braccio, torcicollo, vertigini, nausea. Esami su esami: anche lì, su uno stesso esame referti differenti. Non ci sono ernie, sì ci sono ernie, nella seconda o no nella terza o forse più sotto, ma che non si nomini mai la PRIMA vertebra!!! Terapie su terapie inutili, soldi buttati via e malessere garantito, poi la svolta con due sedute. Basterebbe praticare il dubbio nella propria vita, fregarsene del parere di un Dottore intrappolato nel suo recinto medico convenzionale per trovare la soluzione giusta. Che dire....per quanto mi riguarda finalmente sto bene ed è solo grazie ad Atlantomed.

Translation: I must say that I have never agreed with negative comments because I believe they are not productive for either the recipient or the sender. My evaluation of any experience, including this one, is based on personal experience, an assessment that I hope will help improve the service. First session on February 14, 2024, alignment checked before and after therapy, seems straightened, waiting for improvements that have not arrived. At the end of March, I request an appointment for the second session set for April 26, 2024, and until that date still no improvement, the migraine remained unchanged, the tinnitus the same, the neck pain did not go away, basically no improvement. I still go for the second session on April 26 as scheduled, today May 20, 2024, still no improvement in any of the problems. I understand that not all problems can depend on the atlas, but I have not found improvements in any of my issues, which moreover are all described as possible causes of the misaligned atlas. Maybe it takes more time? We'll see later, after more than four months from the first and over a month from the second therapy, no positive results, no improvement. I just hope it's a matter of time, but for now, I don't feel like giving a top rating.				
Original: Premetto che non sono mai stato in accordo con commenti negativi perché sono del parere che non siano produttivi sia per chi li riceve che per chi li invia, la mia valutazione su qualsiasi esperienza, questa compresa, è data in base all'esperienza personale, valutazione che spero serve a migliorare il servizio. Prima seduta 14 Febbraio 2024, controllato l'allineamento prima e dopo la terapia, sembra addrizzato, attendo miglioramenti che non sono arrivati, a fine marzo chiedo appuntamento per la seconda seduta fissata per il 26 aprile 2024, e fino a quella data ancora nessun miglioramento, l'emicrania e rimasta invariata, l'acufene lo stesso il mal di collo non è passato, in pratica nessun miglioramento, vado comunque a fare la seconda seduta il 26 aprile come stabilito, oggi 20 maggio 2024 ancora nessun miglioramento di nessuno dei problemi, capisco che non tutti i problemi possono dipendere dall'atlante, ma non ho trovato miglioramenti in nessuno dei miei problemi, che oltretutto sono tutti descritti come possibile causa dell'atlante non allineato, forse ci vuole più tempo? Vediamo in seguito, dopo oltre quattro mesi dalla prima e dopo oltre un mese dalla seconda terapia, nessun risultato positivo, nessun miglioramento, spero solo che sia questione di tempo, ma per ora non mi sento di dare un giudizio massimo.

Translation: I am very satisfied with the treatment as it has more than halved the migraine attacks, thus avoiding a massive use of medication. I went from 12-14 attacks a month to 5-6 attacks. It is a result I did not expect considering that I am 64 years old and have suffered from migraines since I was a girl. After making countless attempts to heal without results, the Atlantomed treatment was the only one to provide positive results. So I definitely recommend it to everyone.				
Original: Sono molto soddisfatta del trattamento in quanto ha più che dimezzato gli attacchi di emicrania, evitando così un massiccio uso di farmaci. Sono passata da 12-14 attacchi al mese, a 5-6 attacchi. E' un risultato che non mi aspettavo considerato che ho 64 anni e soffro di emicrania da quando ero una ragazza. Dopo aver fatto innumerevoli tentativi di guarigione senza risultato, il trattamento di Atlantomed è stato l'unico a dare dei risultati positivi. Quindi sicuramente lo consiglio a tutti.

Translation: I am very satisfied with the treatment. For almost 10 years, no one could tell me what was going on. Always these unbearable back pains. At some point, it was attributed to my psyche. A physical therapist then recognized the atlas misalignment and referred me to Mrs. Klappstein-Bode. There is a very pleasant atmosphere in the practice. Mrs. Klappstein-Bode is very nice, addresses problems, and explains everything very well. I recommend everyone to have it checked whether the atlas is in the correct position. Thank you, Mrs. Klappstein-Bode. You have helped me so much with the treatment.

Original: Ich bin sehr zufrieden mit der Behandlung. Seit fast 10 Jahren konnte mit keiner sagen, was los ist. Immer diese unerträglichen Rückenschmerzen. Es wurde irgendwann auf meine Psyche geschoben. Eine Physiotherapeutin hat dann die Atlas Fehlstellung erkannt und mich an Frau Klappstein-Bode verwiesen. Es ist eine sehr schöne Atmosphäre in der Praxis. Frau Klappstein-Bode ist sehr nett geht auf Probleme ein und erklärt alles sehr gut. Ich empfehle jedem, mal checken zu lassen ob der Atlas in der richtigen Position steht. Danke Frau Klappstein-Bode. Sie haben mir mit der Behandlung so sehr geholfen.

Translation: I ended up with Mr. Gorgulla due to a CMD with splint treatment, and the treatment was a complete success. Since then, I've noticed clearly how the dental contacts adjust on the same side according to the previously identified atlas misalignment; my symptoms have significantly improved and continue to get better. I am very glad I tried it and will return to Mr. Gorgulla if needed in the future.				
Original: Ich bin aufgrund einer CMD mit Schienenbehandlung bei Herrn Gorgulla gelandet und die Behandlung war ein voller Erfolg. Seither merke ich deutlich, wie sich die Zahnkontakte entsprechend der zuvor festgestellten Atlasfehlstellung immer wieder auf derselben Seite anpassen; meine Beschwerden sind deutlich besser geworden und verbessern sich weiterhin. Ich bin sehr froh, es ausprobiert zu haben und werde bei weiterem Bedarf auch wieder zu Herrn Gorgulla gehen.

Translation: Good morning, since I underwent the treatment, I have experienced a significant improvement in my health. From the very first treatment, I have no longer had cervical attacks and pain in the lumbar region. Over time, and since the second treatment, my tinnitus has regressed, and my sleep has improved as I previously suffered from insomnia. The mobility of my neck, which was previously limited, has now normalized. I highly recommend your treatment, and I have recently referred two people who have had very positive feedback. Best regards.				
Original: Buongiorno, da quando mi sono sottoposta al trattamento ho avuto un netto miglioramento dello stato di salute, fin dal primo trattamento non ho più avuto attacchi di cervicale e dolori alla fascia lombare. Nel tempo, e dal secondo trattamento, sono regrediti gli acufeni ed è migliorato anche il sonno in quanto in precedenza soffrivo anche di insonnia. La mobilità del collo, prima limitata, ora si è normalizzata. Consiglio caldamente il vostro trattamento, ho anche inviato due persone di recente che hanno avuto un riscontro molto positivo. Translation: It has now been 10 weeks since the second session, but I do not notice any improvements. My issue, which has been treated for years, is limited to cervical pain, muscle contractures in the trapezius and neck, with movement stiffness and recurrent headaches, although not of excessive severity. Unfortunately, even though I consider Atlantovib a valid physiotherapy treatment that works in depth and could be repeated occasionally, I do not notice any overall improvement in the neck and shoulder area or in the frequency of headaches.				
Original: Sono passate ormai 10 settimana dalla seconda seduta, ma non rilevo miglioramenti. Il mio problema, già trattato da anni, si limita ai dolori cervicali, contratture muscolari del trapezio e collo, con rigidità nel movimento e mal di testa ricorrenti, pur non di entità esagerata. Purtroppo, pur valutando Atlantovib come un valido trattamento fisioterapico che agisce in profondità e che potrei ripetere occasionalmente, non rilevo alcun miglioramento generale a livello di collo e spalle o nella frequenza dei mal di testa.

Translation: The Atlas correction (misalignment and skew) has yielded the following results: jaw alignment parallel, tension pain in the neck and shoulder area disappeared immediately after the treatment. Headaches are now rare. The predicted aches and pains were temporary and have now disappeared. The entire spine has realigned, and body posture (pelvic misalignment, etc.) has significantly improved. My head noises could not be resolved. However, this is very likely an ENT issue. Many heartfelt thanks for the competent advice and professional execution of the Atlas correction. Highly recommended.

Die gesamte Wirbelsäule hat sich neu ausgerichtet und die Körperhaltung (Beckenschiefstellung,etc.) signifikant verbessert. Meine Kopfgeräusche konnten nicht behoben werden. I was convinced otherwise, I still have tinnitus and neck pain, I believe it's not an atlas problem, but in the meantime, we have put it back in place because it was slightly out of position. thank you very much regards

Translation: From the very first session, I noticed significant improvements regarding the constant neck and back pain I had. The headaches (I've suffered from them for 15 years) have their ups and downs, but even there I'm noticing small changes little by little. Not to mention those annoying noises in my jaw. I'm very happy to be a positive witness to this.				
Original: Già dalla prima seduta ho notato dei netti miglioramenti per quanto riguarda i continui dolori a collo e schiena che avevo. Il mal di testa (ne soffro da 15 anni) ha degli alti e bassi ma anche li sto notando dei piccoli cambiamenti poco alla volta. Senza parlare di quei fastidiosi rumori alla mandibola. Felicissima di poter essere una testimone positiva di ciò.

Translation: Good morning ☀, after the first session, I felt great, meaning three weeks with zero back pain, it was wonderful . After the second session, no improvements; in fact, for about three weeks now, I've been waking up with my back (lower area) almost locked, always right after getting out of bed, the first steps, I feel a sensation of needles , as if walking on needles. Then the dizziness returned, then the right side, under the ribs, that pain returned. Also, the sacrum area, I feel a kind of discomfort, as if I had a weight there. Then also the right knee, I feel it limits me in bending, then when I extend my leg it limits me in extension. However, walking is fine, but in the morning right after getting up it's not good. In short, I'm not missing anything. I would have loved to write something completely different, but unfortunately, it isn't so. I would really like to go back to being like I was during the first three weeks, zero pain/discomfort during the day or right after waking up. I no longer know what's happening.

Original: Buongiorno ☀, dopo la prima seduta ,mi sono sentita alla grande ,cioè per tre settimane zero dolori di schiena ,una meraviglia . Dopo la seconda seduta , niente miglioramenti,anzi sono circa tre settimane che mi sveglio con la schiena (zona bassa) quasi blocata, sempre appena alzata dal letto ,i primi passi ,averto una sensazione di aghi ,come se caminasse sugli aghi.poi è tornato anche il giramento di testa,poi la parte destra,sotto le costole è ritornato quel dolore .Anche la zona del sacro ,sento una specie di fastidio,come se avessi un peso lì .Poi anche il ginocchio dx, sento che mi limita nel piegare,poi quando stendo la gamba mi limita in estensione. Però ,caminando va bene ,invece la mattina appena alzata nn va bene . Insomma,nn mi faccio mancare nulla . Avrei voluto tanto a scrivere ,tutt'altro ,però purtroppo nn è così . Vorrei tanto ritornare ad essere quella delle prime tre settimane,zero dolori/ fastidi durante la giornata o appena sveglia. Nn so più cosa succede.

Translation: In June 2023, I was diagnosed with Meniere's disease! Every 14-21 days, I experienced vertigo, hearing impairment, vomiting, and tinnitus. The attacks always lasted between 2.5 and 4 hours. In a Meniere's disease forum, I was alerted by a member who had an atlas C1 misalignment due to a riding accident. In September 2018, I had a syncope in Italy, was unconscious for 20 minutes, and as a result, had an 8cm laceration on my forehead, extending to the right eye, and my cervical spine was also affected by the fall. Over the 5 years, several MRIs were done, physical therapy was prescribed, and I also consulted two neurosurgeons. The result was - we see nothing, but that doesn't mean there's nothing there.....!!?? Inspired by the woman's account who had a riding accident, I searched online and found Mrs. Klappstein-Bode in Uetze. After 4 weeks, I got an appointment. Mrs. Klappstein-Bode immediately noticed that the atlas was "misaligned" and began treatment and correction. I felt like she had eyes at her fingertips, as she registered even the smallest changes. After the treatment (about 1.5 hours), I got back into the car and drove 100 km home. On the first night, I woke up drenched in sweat, which was likely a reaction to the treatment. After three weeks, I had another attack with dizziness, vomiting, etc.! After another 2 weeks, I had the second treatment with Mrs. Klappstein-Bode. The procedure was almost identical to the first time, and the atlas was slightly corrected again, as Mrs. Klappstein-Bode holds herself to very high standards. She concluded by saying that it must and will get better, but I also need to be patient. It could take up to a year since the atlas had been misaligned for 5 years due to the accident. The next morning, I had the worst attack since the diagnosis in June 2023. A call to Mrs. Klappstein-Bode gave me courage. Since this event, 8 weeks have passed.				
Original: Im Juni 2023 wurde bei mir Morbus Menière diagnostiziert! Alle 14 -21 Tage hatte ich Drehschwindel, Höreinschränkung, Erbrechen und Tinnitus. Die Attacken dauerten immer zwischen 2,5 und 4 Stunden. In einem Morbus Menière Forum wurde ich durch ein Mitglied aufmerksam, was durch einen Reitunfall eine Atlas C1 Fehlstellung hatte. Im September 2018 hatte ich in Italien eine Synkope, ich war 20 Min. bewusstlos, hatte dadurch eine 8cm lange Platzwunde an der Stirn, bis zum rechten Auge und die HWS war durch den Sturz auch betroffen. In den 5 Jahren wurden einige MRT`s gemacht, Physio verschrieben und bei 2 Neurochirurgen war ich auch. Ergebnis war - wir sehen nichts, aber das heißt nicht, dass dort nichts ist.....!!?? Durch den Erfahrungsbericht der Frau, die einen Reitunfall hatte, habe ich im Internet Frau Klappstein-Bode in Uetze herausgesucht. Nach 4 Wochen habe ich einen Termin bekommen. Frau Klappstein-Bode hat sofort festgestellt, dass der Atlas „falsch“ sitzt und mit der Behandlung und Korrektur begonnen. Ich hatte das Gefühl, dass sie an ihren Fingerspitzen Augen hat, da sie jede noch so kleine Veränderung registrierte. Nach der Behandlung (ca. 1,5 Stunden) habe ich mich wieder ins Auto gesetzt und bin die 100Km Richtung Heimat gefahren. In der ersten Nacht bin ich schweißgebadet aufgewacht, es war wohl eine Reaktion auf die Behandlung. Nach drei Wochen hatte ich wieder eine Attacke mit Schwindel, Erbrechen usw.! Nach weiteren 2 Wochen war dann die 2 Behandlung bei Frau Klappstein-Bode. Der Ablauf war fast identisch zum ersten Mal und der Atlas wurde noch leicht korrigiert, da Frau Klappstein-Bode sehr hohe Ansprüche an sich selber stellt. Sie sagte zum Abschluss, dass es nun besser werden muss und auch wird, aber ich auch Geduld haben muss. Es könnte bis zu einem Jahr dauern, da der Atlas 5 Jahre durch den Unfall schief war. Am nächsten Morgen hatte ich die schlimmste Attacke seit der Diagnose im Juni 2023. Ein Anruf bei Frau Klappstein-Bode machte mir Mut. Seit diesem Ereignis sind nun 8 Woc

Translation: After the treatment, I experienced noticeable improvements in posture, and consequently significant muscular adjustments, sometimes even painful, but predictable in the context of overall rebalancing. I recommend it to all people with widespread issues as they are often connected with the misalignment of the atlas.				
Original: Dopo il trattamento ho avuto miglioramenti sensibili alla postura, e di conseguenza aggiustamenti muscolari importanti, talvolta anche dolorosi, ma prevedibili in un ottica di complessivo riequilibrio. Lo consiglio a tutte le persone che hanno problematiche diffuse in quanto spesso sono collegate con il disallineamento dell'atlante.
